SUPPLEMENTAL AMENDMENT

Included in this May 27, 2008 Supplemental Amendment are

1. A statement suggested by the Examiner indicating the electronic signature on the May 15 2008 submission which only had one hash “/” mark was indeed my signature and the submission was made by Edwin A. Sisson.
2. A replacement last page with the proper electronic signature.

The following statement is submitted as part of the record of this application.

The May 15, 2008 submission contained a defective electronic signature. The electronic signature had the leading hash “/” mark but was missing the trailing hash “/”.

I, Edwin Sisson, declare that the signature with the missing hash was intended to be my electronic signature and that I did write, review and submit that submission.

/Edwin A. Sisson, #48,723/

Edwin A. Sisson

The following page is the replacement page for the last page (47) of the May 15, 2008 submission. The Examiner is respectfully requested to substitute the last page with the following page. Thank you.

It is believed that the arguments overcome all the objections and rejections and that the claims are in position to be allowed over the prior art. A notice of allowance is respectfully requested.

Respectfully submitted,

/Edwin A. Sisson, 48,723/
